Hello Michal,

There is some value in keeping our comments within a single string based on overlapping themes so I will add to Chris's comments. The following legal risk evaluation assesses the current proposal, but it is similar to the previous evaluation because the proposals are in essence basically the same.

Subject: RE: TCE

Carlton – thanks for passing along your staff's comments, and adding Jeff, Alison and Maureen to this chain.

When we met on 2/18, we resolved to have OCSPP send a memo to ORD requesting scientific views on the TCE endpoint matter, and have ORD send a memo back that was similar in content to the responses to the Requests for Correction that have already been submitted/completed for the TCE IRIS assessment.

Ex. 5 Deliberative Process (DP)

I talked to Janet last night, and am attaching the path forward that OCSPP is going to propose to the Administrator. Carlton, you'll see in this that your staff's points 1,2 and 4 are included in this proposal, and point 3 is addressed as well (just at a different point in time than proposed).

Thank you all for your continued engagement and time on this complicated issue.

Michal

Subject: TCE

Hi Michal,

Here are written comments from my staff that I sought to share in the meeting last week. I understand that one or more of them may conflict with scheduling needs, but I wanted to provide them for your consideration of a path forward.
